BIDS

Buyer may call or send their bids to any of the sale professionals listed above or directly to Chapman Cattle Company. Complete satisfaction is guaranteed for cattle purchased sight unseen as well as all bulls sold.

TERMS & CONDITIONS

All cattle sell under the standard terms and conditions of the Canadian Angus Association. Terms of the sale are cash, payable on Sale Day unless prior arrangements have been made with Chapman Cattle Company.

INSURANCE

Ownership risk to purchaser commences when the Auctioneer's hammer falls. All cattle returning to Chapman Cattle Company must be insured. Although all precautions will be made for the well-being of your cattle until possession has transferred, Chapman Cattle Company will not be liable for any sickness, injury or death that causes loss of use of the specified cattle. A Livestock Insurance agent will be available Sale Day to discuss your coverage options.

ANNOUNCEMENTS

All announcements from the sale block on sale day take precedence over any printed material.

FOOD

Coffee & donuts in the morning. Lunch will be provided and served starting at 12:00 pm. Hospitality after the sale

HOTELS

Canalta Hotel, Stettler	403-742-3371
Ramanda Inn, Stettler	403-742-6555
Super 8 Motel, Stettler	403-742-3391
Heartlander Motel, Stettler	403-742-3401

LIABILITY

All persons who attend the sale do so at their own risk and the owners, management, and Sale Day staff assume no liability, and disclaims all liability, legal or otherwise, for any reason.

HEALTH

All sale bulls have been vaccinated twice with Vision 8 Somnus and Vista Once; bolstered with Express FP 5-VL5; treated with Ivermectin, Cylence and SafeGuard; supplemented with MultiMin 90 and Vitamin A/D; and fertility tested by Dr. Jackie Dobinson.

STORM DATE

FEB 24, 2023 | 1PM | Stettler Auction Mart

In the event of a weather event, updates will be posted at www.chapmancattle.com or call the Stettler Auction Mart 403-742-2368 or Silas Chapman 403-741-2099

DELIVERY

Upon Settlement, please choose one of the following options and inform the clerk at the time of settlement. Please leave detailed delivery instructions upon doing so.

A: \$150 discount per bull if bulls are picked up sale day.

B: \$100 discount per bull if picked up within a week of the sale.

C: Complimentary delivery to central locations within the Prairie Provinces and B.C. will apply on invoices of \$6,000 or more. A delivery fee of \$100 will apply to invoices less than \$6,000 within the same geography. Cost of delivery to Eastern Canada will be that of the purchaser. American purchases will be delivered to PAYS in Billings, MT with a \$250 fee for health permitting added to the invoice. Every attempt will be made to get your new bull(s) as close to your bull pen as possible with delivery commencing in mid-March following the sale.

SIGHT UNSEEN PURCHASES

Can't make it to the sale? We guarantee you won't be disappointed in a Chapman "Forage-Developed" bull that you buy "sight unseen." In fact, we sell many bulls every year this way. Our experience over the past 73 years is the sooner you contact us, the better we are able to match the right cattle to your specifications. When cattle purchased sight-unseen are delivered, the buyer has the right of refusal for any animal that is not as they were represented. Guarantee applies only to cattle discussed with a Chapman Sale Professional prior to the sale.

GUARANTEE

We're confident that our 'Forage-Developed' bulls will meet and exceed your standards for longevity and performance. If for any reasons you're not satisfied with a bull you purchase from us, you don't have to pay - just call us for a prompt and courteous credit or refund. Any claims are to be made by October 01, 2023.

2022 SALE HIGHLIGHTS

Welcome

Welcome to our Annual Forage-Developed Bull Sale; and thank you for your interest in the genetics we bring forward every year. Over the course of 73 years registering purebred cattle we have been developing and marketing 2-Year-Old bulls exclusively. Within that time our philosophy to breeding cattle really hasn't changed: avoid any shot-gun approach to genetic selection, avoid chasing fads, and remain steadfast in maternal genetic selection.

As cattle producers, we all have access to the same genetics annually. We have focused on stacking proven genetics that are like-in-type; while allowing the environment to sort through the genetic base we have, or have accessed, in order to determine the replacements we keep and the bulls we sell. This has resulted in a multi-generational product that breed true in both genotype and phenotype.

The phenotype of our cattle has moderated over the past two decades, and this is directly attributed to the cows matching the environmental pressure we place on them. However, the percent body weight weaned per cow is now higher. If we were a commercial cow/calf outfit we would have the ability to run more cows per acre with the option to initiate a terminal crossbreeding system to increase yield. The ideal cow size and weight has been highly debated; but as a whole the smaller cow should contribute more to your gross margin.

Pictured as a 5-year old breeding bull is Chapman Rito 7590 who was purchased in the 2019 sale by Logan James for \$4,000. This bull emulates a few claims we have made since our first Forage-Developed Bull Sale in 2007:

- Sale day is just a snap shot in time of how our bulls will look. Our bulls continue to develop in a positive manner and albeit developed at a slower pace, they mature into robust, athletic breeding bulls with a high level of virility and libido. To be honest, I don't even recognize most of the bulls I sell a year later – they've continued to grow and gain weight during and after the breeding season. 7590 is one of over 1600+ Forage-Developed bulls sold that validates their upside.
- Our bulls are uniform in type which is probably the most reiterated feedback about our cattle. 7590 as the Lot 79 bull looked very similar to Lot 1 and Lot 100 and every bull in between in that 2019 sale. This year's offering is no different. Bulls of uniformity come from cow herds of uniformity and produce calves with uniformity.
- We have always used moderate and maternal to describe our cows but haven't used those terms loosely. 7590's dam weighed in at 1376 lbs and came from the Lady Erica cow family. She earned a weaning ratio 6/105 after she had raised him and was preceded by 2 consecutive donors that produced well into their late teens. We pride ourselves on fertility and longevity and publish data on the mother cow's production derived from a big herd of one contemporary group.

- 7590 emulates the annual sale offering where there is an attention to the little things pertaining to proper structure in a breeding bull that is often overlooked in the chase of extra performance or better numbers; such as a clean sheath, proper scrotal shape, a straight topline or a true Angus head.

We recommend that before you buy a bull anywhere, familiarize yourself with their cowherd, their breeding objectives, and their long-term philosophy. There is no way around it, your cowherd inherits its genes from where the herd sires are sourced from, and that can have a profound financial impact on your program for years.

With that, the sale offering represents a cross section of proven maternal genetics. The bull offering is uniform and consistent – quality sells throughout. We are confident in the genetic package we are selling on Thursday, February 23rd and are available 365 days a year to assist you with your purchases. Thank you in advance for your interest and consideration.

BC Robust 0807 was the high selling bull sourced out of the 2017 Conley Angus Bull Sale. He was the lead off bull in the Champion Yearling Pen of 3 bulls at the 2017 NWSS. He is a very balanced bull: long spined, big hipped and very photogenic in a 5 frame. He is a true breeding bull that has caught the attention of many astute cattlemen. Sons of Robust emulate the same visual appeal of their sire; but more importantly, his daughters now in production are off to a great start and possess the maternal excellence only achieved through decades of genetically predictable breeding.

In search of an outcross pedigree that offers a phenotype similar to ours, we chose 749 as one of the higher dollar bulls in the spring '18 Sitz Bull Sale. He posted a BW 87, WW 775, YW 1340, and YSC 40; and is a result of an embryo mating between the highly proven Basin Payweight 1682 and the Pathfinder donor Sitz Forever Lady 612T. She is also the mother behind Sitz Reload 411C. We used 749 and a son heavy in 2021 and 2022 and based on his young daughters he will be an udder fixer.

7141 was our pick and the 3rd high selling bull out of the 2018 McCumber Angus Bull Sale. Everything about 7141 indicates a cow maker. He is triple bred Sinclair Extra 4X13 and out of an outstanding OCC Tremendous 619T dam. He is a long-spined bull, highly fertile, and is structurally hard to fault. His 1st daughters in production are perhaps some of our best in type.

809 was our pick from the 2019 McCumber Sale. He is a balanced bull, clean fronted and long made and really stamps those qualities into his progeny. A calving ease option with some go, 809 has worked well on heifers and cows. He is an outlier in that he is a big ribeye bull having posted an actual yearling REA of 17.60 to ratio 131 while earning a 107 IMF ratio. The story on his dam reads well too, having never missed an A. I. service on 11 calves, posting a NR of 103. His young daughters are wedge shaped and really drop a pretty udder.

We retained five bulls out of the 2014 calf crop. Those five were all out of what we considered paternally prepotent dams that were proven and donor worthy. 4547B was one of those five and out of the 5900R donor who earned a NR 12/103 who also produced the Memento 0511X herd sire. Interesting that 4547 is a naturally sired son of Crowfoot Equation 5793R who ran here with 50 cows as a 9-year-old bull. The first Crowfoot Equation daughters are now entering their 16th year and easily make an argument to going back to using the old bull, or his downline.

Coalition created a proof of production the old school way, having ran in multi-sire groups his first two years. After that he always got the older proven cows, hoping for one more daughter out of them. Coalition has a herd bull look and visitors always noted on the quality of condition and foot he has for an older bull. He carries the maternal legacy of two generations of Lady Erica donors. His daughters have great udder structure - maybe our best.

Retained from a very competitive 2017 calf crop to carry on the Memento sire line. As you will see, the "Memento" influence runs deep throughout the sale offering. They are efficient in their type and possess very strong udder structure. Like his paternal brothers that have worked here, covering 60 cows in a season was like a morning snack. His dam annually contributed one of the better calves and went on to earn a progeny weaning ratio 10 @ 107.

Not a lot of direct OCC Echelon sons around anywhere. Echelon was a bull that left some fluffy eared, efficient daughters that had fertility and longevity to them, and 32G combines all that with more frame and length of spine. 32G's mother has been a very productive cow and coincidentally has two sons that walked here in 2022. Utilize this Echelon downline to solidify those foundation maternal attributes.

Coalition and his downline has seen a resurgence in popularity from some of the more astute cattlemen both sides of the border. He is a bull with a higher accuracy proof and was sampled to generate a new pedigree option for our bull customers without sacrificing our strong maternal focus. Added docility, calving ease and the daughters really fit the mold.

Renew was a feature bull in the 2019 SAV sale and a crowd favorite for his massive build and gentle disposition. Typically I refrain from using a bull if I haven't seen him, but had reliable eyes at Schaff's sale that validated him as a downline Renown option. Another fresh but predictable pedigree for our long time customers.

Another highly proven A.I. sire with close to 1,000 progeny recorded in the Canadian herdbook. His sons will be new blood for many that have been here before, and the notes on the bull hold true in that he adds some growth, hip structure, docility and an overall eye appeal. Everything seems to be in line with this sire group except there aren't many sons on offer because we got mostly heifers.

8613 was selected out of our 2018 bull and offers added growth and a little more stature. His sons have the look of a breeding bull and a higher percentage of his daughters made the replacement pen with a real brood cow look to them. Typical of the Equation daughters, his dam annually gets it done, having earned a weaning and yearling ratio of 109 and 111 respectively on 11 calves. Recourse is a bull that has earned a large group of cows in 2023.

FOOT SCORE GUIDELINES

Foot Angle (5 is ideal)

1

Extremely straight pasterns.
Very short toe. Unsound.

2

Straight front and rear pasterns.
Marginally unsound.

3

Moderately straight front
and rear pasterns.

4

Slightly straight front
and rear pasterns.

5

Ideal. Approximately 45-degree angle
at pastern joint. Appropriate length of
toe and depth of heel.

6

Slightly shallow heel and long toe.

7

Moderately shallow heel and long toe.
Somewhat weak pasterns.

8

Shallow heel and long toe.
Marginally unsound.

9

Extremely shallow heel and long toe.
Extremely weak pasterns. Unsound.

Claw Set (5 is ideal)

Extremely weak, open,
divergent claw set. Unsound.

1

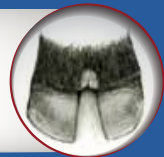

Open, divergent claw set.
Marginally unsound.

2

Moderately open/divergent
claw set.

3

Slightly open/divergent
claw set.

4

Ideal. Symmetrical claws, with
appropriate space between claws.

5

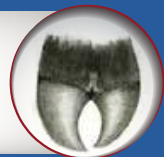

Slight tendency for claws to curl.
One claw may be slightly larger
than the other.

6

Tendency for claws to curl, with one
claw larger than the other.

7

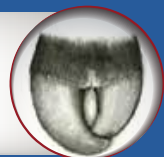

Moderate scissor claw and/or screw
claw. Curling of one or both claws. Near
crossing of claws. Marginally unsound.

8

Extreme scissor claw and/or screw claw.
Pronounced curling of one or both claws.
Crossing of claws. Unsound

9

EPD EXPLANATION

EPD's are predictions on how each bull rates against his own contemporary group and the rest of the breed. EPD's evaluate group averages and offspring's performance, however they cannot predict individual performance or weights.

For example, if Bull A (WW EPD of +10) & Bull B (WW of +60) were randomly mated with 10 similar cows, we would expect the group avg. weaning weight of Bull A's offspring to be 50 lbs. lighter than Bull B's (60 - 10 = 50).

BW	Birth Weight - expressed in pounds, is a prediction of a sire's ability to transmit birth weight to his progeny
WW	Weaning Weight - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny
YW	Yearling Weight - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny.
MILK	A predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters
CE	Calving Ease Direct (CE), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.
MCE	Maternal Calving Ease (MCE) is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

BREED AVERAGES

Black Angus Breed Averages are compiled from the total number of Black Angus calves registered in 2021 to compare the BLACK ANGUS BULLS in this catalogue to:

	BLACK ANGUS
BW	+2.0
WW	+51
YW	+89
M	+23
CE	+3.4
MCE	+6.6
